

AIROCHEM

Industrial Fans & Systems

Established In 1975 as Partnership firm, registered as Small Scale Industry to manufacture various types of Pollution Control Equipments.

Last Thirty five years of growth have witnessed Airochem Engineering Company has emerged as leader in design & manufacture of variety of Industrial Pollution Control Equipments, allied products & other turnkey projects.

The company's operations involve manufacturing, marketing and turnkey projects in clearly defined core Business Area at home & overseas.

We have exported our products to countries like Australia, Kenya, Philippines, Bangladesh, UAE, Nepal, Vietnam etc.

Over the years, Airochem Engineering Company has steadily developed into an ISO 9001:2008 certified, professionally managed company, comprising of three fully equipped manufacturing units. All our Products are indigenously developed and are tested for their performance as per relevant Indian Standards.

As various products have been indigenously designed, any shortcoming during installation, commissioning can be confidently overcome to fullest satisfaction of our customers.

Airochem Engineering Company, a dedicated team of professionals along with its latest state of the art technology provides a reliable & trouble free service on the basis of superior technical design. The accuracy & care with which the components are crafted & assembled, as also the stringency with which the fans are tested before despatch is hallmark of AIROCHEM.

We are group of three manufacturing units in Kolhapur, Maharashtra, India, started as Small Scale Industry by technocrat entrepreneurs in the year 1975.

Products Manufacture At AIROCHEM

- Induced & Forced Draft Fans for Boilers.
- Centrifugal Ventilation Fans.
- Centrifugal Blowers.
- Multistage Centrifugal Blowers.
- Axial Flow Fans.
- Multistage Axial Flow Fans.
- Industrial Mancoolers.
- High Efficiency Dry Cyclone & Multiclone Collectors.
- Louvered Cone Fly Ash Arresters (Low loss type).
- Pulse Air jet Bag Filters.
- Gas Scrubbers.
- Rotary Air Lock Valves.
- Diverter Valves.

PROJECTS EXECUTION ON TURNKEY BASIS AT AIROCHEM

- Dust Extraction Systems.
- Dry Fog dust Suppression Systems.
- Fume Control Systems.
- Process Air Heating & Cooling Systems.
- Pneumatic Conveying Systems.
- Comfort Ventilation Systems,
- Room Pressurization Systems.
- Air Washer Installations.
- Fly Ash Collection Systems.
- Sugar Grader Dust Collection Systems.
- Drying systems for food & chemical Products.
- Silencers and Acoustic Enclosures.

Dry Fog Nozzles Placement for Transfer point.

Dry Fog Nozzle placement & flow of material.
